Pacific Islands Development Forum

Strategic Profile

VISION

A United, Distinctive and Sustainable Pacific Society

MISSION

Enabling Green–Blue Pacific Economies through Inclusive Strategies, Multi-stakeholder Governance, and Genuine Partnerships

PURPOSE

PIDF will drive, through regional and national frameworks, transformative changes by focusing exclusively on the sustainable and inclusive development of the Pacific small island developing countries and territories and peoples by:

- * Accelerating the integration of the three pillars of sustainable development (environment, social, and economic) to balance the pursuit of economic growth against the needs of societies and the sustainability of the environment; and

- * Facilitating the use of tools and innovations such as green economy, adaptive leadership, and genuine partnerships to stimulate robust debate while fostering an inclusive change agenda that address the root causes of unsustainable development practices

FUNCTION

PIDF would:

- * serve as a dynamic regional partnership platform where leaders and representatives of Pacific small island developing countries and territories take ownership of their decisions and actions to address their special development needs;

- * provide for an inclusive regional multi-stakeholder forum for leaders of governments, private sector and civil society; and

- * serve as the Pacific regional counterpart for the south-south groupings and other regional and international arrangements that focus exclusively on the sustainable development of small islands developing countries and territories

A Sustainable Pacific
